## Monsoon Food Storage Hacks

### Vegetables

Wrap the vegetables in a newspaper to absorb moisture & keep them in a zip lock bag.

### Biscuits and Cookies

Wrap them in a blotting paper and store in an air tight container.

### Grains

Store the pulses in the refrigerator or put camphor pieces to keep worms away. You can also add dried neem leaves in the jars.

### Flour

Store in air tight containers and add bay leaves to prevent moisture build up. Roast sooji before storing to prevent fungi or bacteria.

### Spices

Store in air tight glass containers. Slightly roast cinnamon, cardamom and pepper every fortnight so that they don't become tasteless.

### Sugar and Salt

Store in air tight glass containers instead of plastic. Add some rice grains to absorb any moisture that may seep in.
